

G.A. Public Adjusters helps property owner get rightful damage claims from insurance companies

Individuals who have suffered damage to their personal or business real estate property may be uncertain of how they will get the best results in dealing with insurance companies. A reliable public adjuster is more likely to get property owners the best return on their insurance claims than untrained individuals can get for themselves.

Geoff Antonio of G.A. Public Adjusters will use his years of experience and his proven track record as a professional adjuster to make sure that homeowners and businesses get the best value for their claims.

Mr. Antonio said many people do not realize that they can make a claim for damages to their property, or likewise, they believe that dealing with insurance companies personally is the only way to handle the situation.

As a professional public adjuster, G.A. Public Adjusters can offer property owners information about ways to protect

themselves from being taken advantage of by insurance companies and contractors, while getting needed repairs for homes and businesses.

Mr. Antonio said that property owners who have filed their claim and have chosen to work with G.A. Public Adjusters have a 95% success rate, with no denials, and have the opportunity to have their repairs made with little to no personal cost in process.

He offers his services for a wide variety of different claims situations. Not only does he handle homeowner claims, he also works on business claims for churches, grocery stores, and commercial businesses that have incurred damage.

A prime focus can be found in claims related to wind, rain, fire, and smoke damage. Last winter's harsh weather from the wind storms caused damage to a large percentage of residential and commercial properties in the San Gabriel Valley.

As a result of that event, Mr. Antonio has helped many property owners with claims

for roof and water damage. He is still working with many clients to help them take complete claims and get access to necessary repairs. He said a large percentage of affected businesses and homeowners still have not yet started their claim process. He urges them to start immediately.

"One of the most crucial factors potential clients should keep in mind is that it is important to start working on one's claim as soon as possible," he said. Mr. Antonio emphasizes that it is important for individuals dealing with damage to contact him or one of his representatives as soon as possible in order to get the best results in handling their claim.

Using the services of a public adjuster can help greatly in reducing the amount of hassle and stress that is commonly associated with dealing with the claims process on one's own. G.A. Public Adjusters has its own personal team with access to many experts that can assist with getting estimates and repairs.

The company is licensed and bonded, and Mr. Antonio's years of experience dealing with insurance companies helps to take the strain off property owners who are overwhelmed with answering constant questions from insurance claims consultants.

In addition, claims related to theft, water overflow, mold, pipe bursts, damage caused by natural disasters, and many other types of damage or loss can also be handled. There is no claim that is too large, small, or not important enough to consider.

Ultimately, property owners need to understand the true significance of filing their claims in a timely manner and working together with individuals that have the expertise in dealing with insurance companies.

Helping to save kids' lives through song

Folk-pop collection to benefit Childrens Hospital Los Angeles

Alhambra resident Erin Wurtemberg, singer, song-writer, and mother of two, is raising awareness about the life-saving efforts of Childrens Hospital Los Angeles by releasing her first full-length record, entitled Beautiful Day.

The album contains a folk-pop collection of 12 songs for children and families. A

portion of the proceeds from the sale of each CD will go directly to Childrens Hospital Los Angeles, an organization that affected Ms. Wurtemberg in 2005. "They saved my daughter's life," she said. "I know I could never repay them for what they gave me, but co-writing a record with my little girl seemed like a small yet significant way to

say thanks and to spread the word about CHLA."

Beautiful Day presents songs of childhood joys and struggles as well as some new arrangements on traditional favorites. Co-produced with Aaron Lepley (Christina Aguilera, Tom Petty), *Beautiful Day* is an assortment of songs for kids and grownups

alike.

CDs may be purchased from Ms. Wurtemberg's Web site or through CD Baby.

For further information, contact Ms. Wurtemberg at 626-215-5809 or erinwurtemberg@gmail.com, or visit www.erinwurtemberg.com or www.cdbaby.com/erinwurtemberg.

Financial planning for a secure future

Any business or individual creating cash flow and income should save and invest wisely and employ sound financial management to grow wealth and protect assets. New Chamber member Albert Aguilera, a financial adviser with Wedbush Securities, wants to help Chamber associates and residents learn how to assess their financial needs and offer solutions leading to a secure future.

"My process is straightforward: I get to know my clients, their situation and uncover what is important to them. Once their goals and aspirations are understood, together we can determine how best to achieve their financial objectives," Mr. Aguilera said.

"I can help them tailor a portfolio designed to meet their needs." He said that by using various financial instruments, a client's assets will be monitored by him on a daily basis and they will be advised when changes are necessary. Annuity and life insurance may also be recommended, where and when that's appropriate, he said.

Mr. Aguilera, a 12-year resident of Alhambra, said he looks forward to his association with the Chamber and invites anyone with questions about their 403(b), 457 pensions, retirement plans, or their investment portfolios to contact him at 213-688-4339; there is no charge.

"If you are currently working with another broker, please consider taking advantage of a complimentary review of your account," he said.

Wedbush Bank, a Wedbush Securities affiliate, was established in 2008. The bank is focused on helping businesses grow through

a variety of services including cash management, business, and commercial lending.

Mr. Aguilera has been associated with Wedbush Securities as a financial adviser since May 2006. He has been licensed since 1995. His industry background involves both brokerage operations and client consulting. "This combined experience assists with providing excellent customer service to my clients," he said.

Wedbush Securities was founded in 1955 by its current CEO Edward Wedbush. The firm has no long term debt and is the largest New York Stock Exchange member firm headquartered on the West Coast with corporate offices in Los Angeles. The firm also has offices throughout the United States.
